Be Colorful
Haleigh Smith

I should not have to be male or female to get a job.

I should not have to be old or young to be valuable.

I should not have to be skinny or fat to be beautiful.

I should not have to be a man or woman to feel safe on the

street.

I should not have to be poor or rich to have a purpose.

I should not have to be black or white to have equal

opportunities.

These are the ideas that many people ponder every single

day.

We should never have to be black or white to have meaning.

Be colorful.
