

Dreams

✧ Dreams are created at the touch
Some are less
Some are much

Dreams can take you to the stars,
They can even take you
all the way to Mars.

Dreams are happy,
Dreams are blessings
Sometimes they are very depressing.

Dreams are beautiful things,
They open up your mind
to help you spread wings.

Dreams are in your imaginations,
Sometimes they take you to faraway destinations.

But when your sleepy eyes open
The fantasy in you has truly spoken.
